

Environmental Policy

Bishopsgate is a leading provider of specialist logistics & installations and is committed to reducing the impact of its activities on the environment.

Senior management have established this environmental policy to be consistent with the purpose and context of our organisation, and it provides a framework for the setting and review of objectives.

Our policy is also to meet the requirements of other interested parties and to meet our social, regulatory and legislative responsibilities.

We have committed to achieving continual improvement across all aspects of our environmental management system; it is one of our main annual objectives.

In order to meet this commitment, we pursue the following objectives:

- Compliance with all applicable environmental legislation and regulations
- Reduce emissions and prevent pollution
- Improve waste management practices
- Reduce consumption of natural resources
- Minimise noise and other nuisances
- Continuously assess our environmental performance
- Work continuously to improve the environmental aspects of any task(s), including influencing our clients to adopt environmentally conscious design of projects, and use of environmental assessment tools.
- Assist in the investigation of environmental incidents on operational sites
- Continually improve our environmental management system to enhance our environmental performance.

Appropriate personnel and resources will be allocated to assist in meeting our environmental objectives and targets. These will be reviewed at least annually by senior management.

In addition, we will continue to raise the levels of environmental awareness throughout our workforce and to promote this awareness to customers and suppliers.

This policy is communicated to all interested parties as well as being made available to the wider community, through publication on our Website, Company Noticeboard and Company Shared Drive.

We are committed to operating the Environmental Management System in a manner that attains and sustains compliance to the international Environmental Management Standard ISO 14001:2015.
